

R6105AZD 75KW 50Hz Ricardo Diesel Backup Generator For Industrial

Our Product Introduction

For more products please visit us on diesels-generators.com

Basic Information

- Place of Origin: China
- Brand Name: Ricardo
- Certification: ISO9001, ISO14001, CE
- Model Number: R6105AZD
- Minimum Order Quantity: 1 Set
- Price: 3100USD
- Packaging Details: Please consult customer service.
- Delivery Time: About 30-50 days
- Payment Terms: L/C, T/T, Western Union, MoneyGram
- Supply Ability: 100 Set/Month

Product Specification

- Product: Diesel Generator
- Noise Level: $\leq 70\text{dB(A)}$
- Output Type: AC Single/Three Phase
- Frequency: 50Hz
- Starting System: Electric Start
- Rated Frequency: 50HZ/60HZ
- Engine: Ricardo R6105AZD
- Canopy: Customized
- Highlight: **Ricardo Diesel Backup Generator, 75KW Diesel Backup Generator**

Product Description

Product Description:

R6105AZD 75KW 50Hz Ricardo Diesel Backup Generator Perfect For Industrial Needs

Ricardo Diesel Generator

The Ricardo Diesel Generator is a reliable and efficient source of electricity for various applications. With a frequency of 50Hz, it is designed to provide stable and consistent power output for all your needs. Powered by the trusted Ricardo N4105DS engine, this generator is built to last and deliver exceptional performance.

Product Overview

The Ricardo Diesel Generator is a prime power generator that can be customized to meet your specific requirements. It is designed to provide a noise level of $\leq 70\text{dB(A)}$, making it ideal for use in residential, commercial, and industrial settings. The generator is equipped with a canopy that can be customized to match the aesthetic of your space, while also providing protection from the elements.

Key Features

Frequency: 50Hz

Noise Level: $\leq 70\text{dB(A)}$

Canopy: Customized

Engine: Ricardo N4105DS

Product: Diesel Generator

Frequency

The 50Hz frequency of the Ricardo Diesel Generator ensures a stable and reliable power supply for all your electrical needs. This frequency is commonly used in most countries around the world, making this generator a versatile choice for various applications.

Noise Level

The noise level of the Ricardo Diesel Generator is $\leq 70\text{dB(A)}$, which is significantly lower than most generators in the market. This makes it an ideal choice for use in noise-sensitive areas, such as residential neighborhoods, hospitals, and schools.

Canopy

The canopy of the Ricardo Diesel Generator can be customized to match the aesthetic of your space. It is designed to provide protection from harsh weather conditions, ensuring the longevity of the generator.

Engine

The Ricardo N4105DS engine is a trusted and reliable power source for the generator. It is designed to deliver exceptional performance, even in the most demanding conditions. With its robust construction and efficient fuel consumption, this engine ensures that the generator operates smoothly and efficiently.

Product Applications

The Ricardo Diesel Generator is suitable for a wide range of applications, including:

Residential use: Provides backup power for homes during power outages

Commercial use: Powers essential equipment and appliances in offices, shops, and restaurants

Industrial use: Used as a primary or backup power source for factories, construction sites, and other industrial settings

Conclusion

The Ricardo Diesel Generator is a reliable, efficient, and versatile power source that is suitable for various applications. With its customizable canopy, low noise level, and powerful engine, it is a top choice for those in need of a prime power generator. Invest in the Ricardo Diesel Electricity Generator and ensure a steady and uninterrupted flow of electricity for all your needs.

Features:

Product Name: Ricardo Diesel Generator

Canopy: Customized

Product: Diesel Generator

Engine: Ricardo N4105DS

Rated Frequency: 50HZ/60HZ

Output Type: AC Single/Three Phase

Ricardo Diesel Residential Generator

Ricardo Diesel Prime Power Generator

Ricardo Diesel Electricity Generator

Technical Parameters:

Product Name	Ricardo Diesel Generator
Output Type	AC Single/Three Phase
Frequency	50Hz
Noise Level	$\leq 70\text{dB(A)}$
Rated Frequency	50HZ/60HZ
Product Type	Diesel Generator
Canopy	Customized
Excitation Type	Brushless Self-excitation

Package	Wooden Case Packing	
Starting System	Electric Start	
Engine	Ricardo N4105DS	
Ricardo Diesel Power Generator		AC Single/Three Phase
Ricardo Diesel Standby Generator		50Hz
Ricardo Diesel Backup Generator		≤ 70dB(A)

Applications:

Ricardo Diesel Generator

Product Overview

The Ricardo Diesel Generator is a powerful and reliable generator that provides continuous power, standby power and emergency power in a variety of applications. It is designed and manufactured by the well-known Chinese brand Ricardo, which has a reputation for producing high-quality and durable diesel engines. This generator is highly sought after in various industries due to its excellent performance, efficiency and reliability.

Product Features

Brand Name: Ricardo

Place of Origin: China

Certification: ISO9001, ISO14001, CE

Minimum Order Quantity: 1 Set

Packaging Details: Please consult customer service.

Delivery Time: About 30-50 days

Payment Terms: L/C, T/T, Western Union, MoneyGram

Supply Ability: 100 Set/Month

Canopy: Customized

Output Type: AC Single/Three Phase

Frequency: 50Hz

Rated Frequency: 50HZ/60HZ

Noise Level: ≤ 70dB(A)

Product Applications

The Ricardo Diesel Generator is suitable for a wide range of applications, including but not limited to:

Construction sites

Mining operations

Oil and gas fields

Telecommunication facilities

Hospitals

Hotels and resorts

Data centers

Commercial buildings

Residential areas

Product Scenarios

Here are three common scenarios where the Ricardo Diesel Generator can be used:

Ricardo Diesel Continuous Power Generator: This generator is designed to provide continuous power to keep critical operations running smoothly. It is ideal for applications that require uninterrupted power supply, such as data centers, telecommunication facilities, and hospitals.

Ricardo Diesel Standby Generator: In case of a power outage, the standby generator will automatically start and provide backup power until the main power supply is restored. It is commonly used in commercial buildings, residential areas, and hotels to avoid disruptions and maintain a comfortable environment for occupants.

Ricardo Diesel Emergency Generator: During emergency situations where the main power supply is unavailable, the emergency generator will start immediately and provide power to essential equipment and facilities. This is crucial in critical industries such as oil and gas fields, mining operations, and construction sites.

Product Specifications

Model	Prime Power	Standby Power	Fuel Consumption at 75% Load	Dimensions (LxWxH)	Weight
Ricardo Diesel Generator 100kW	100kW / 125kVA	110kW / 137.5kVA	24.1 L/h	2470x1000x1600 mm	1750 kg
Ricardo Diesel Generator 200kW	200kW / 250kVA	220kW / 275kVA	45.6 L/h	2900x1100x1700 mm	2800 kg
Ricardo Diesel Generator 500kW	500kW / 625kVA	550kW / 687.5kVA	105 L/h	3600x1400x2200 mm	5000 kg

Our customization service for Ricardo Diesel Generator offers a wide range of options to meet your specific needs. Whether you need a reliable source of electricity for your home or a commercial setting, our Ricardo Diesel Electricity Generator is the perfect solution. With the added flexibility of customization, you can create a generator that is tailored to your exact requirements.

Our Ricardo Diesel Commercial Generator is designed and manufactured in China, ensuring high quality and reliability. It is certified with ISO9001, ISO14001, and CE, guaranteeing its safety and efficiency. With a minimum order quantity of just 1 set, you can easily obtain a customized generator for your specific needs.

Our packaging details are flexible and can be discussed with our customer service team to meet your preferences. Delivery time for our customized generators is about 30-50 days, depending on the level of customization and your location. We offer multiple payment options including L/C, T/T, Western Union, and MoneyGram for your convenience.

With a supply ability of 100 sets per month, we ensure a steady and reliable supply of our Ricardo Diesel Electricity Generator. The noise level of our generator is ≤ 70dB(A), ensuring a quiet and peaceful operation. The engine used in our generator is the powerful and efficient Ricardo N4105DS, providing reliable and consistent performance.

Our customizable canopy allows you to choose the design, color, and material to suit your preferences and needs. This feature not only adds a touch of personalization to your generator but also provides protection from external elements.

Invest in our Ricardo Diesel Generator and take advantage of our customization service to create a tailored solution for your electricity needs. Contact us now to get started.

Packing and Shipping:

Ricardo Diesel Generator Packaging and Shipping

When purchasing a Ricardo Diesel Generator, you can expect it to be carefully packaged and shipped to ensure safe delivery. Here is a breakdown of our packaging and shipping process:

Packaging

Each generator is first placed in a sturdy wooden crate to protect it from any external damage during transportation. The crate is then sealed with industrial-grade straps to keep the generator securely in place.

Inside the crate, the generator is surrounded by foam padding to absorb any shock or impact during transit. This provides an extra layer of protection for the delicate components of the generator.

A user manual and warranty information are also included in the crate to assist you in setting up and maintaining your generator.

Shipping

We work with trusted shipping partners to ensure that your generator arrives at its destination safely and on time. We offer both air and sea freight options, depending on your location and shipping preferences.

Our team carefully loads the crates onto shipping containers or pallets, securing them with heavy-duty straps to prevent any movement during transport. This minimizes the risk of any damage to the generator.

We also provide tracking numbers for your shipment so you can monitor its progress and estimated arrival time.

Once your generator reaches its destination, our shipping partners will handle the unloading and delivery process. Please inspect your generator upon delivery and contact us immediately if you notice any issues.

Thank you for choosing Ricardo Diesel Generator. We are committed to providing top-quality products and ensuring their safe delivery to your doorstep.

FAQ:

Q: What is the brand name of this product?

A: The brand name of this product is Ricardo.

Q: Where is this product made?

A: This product is made in China.

Q: What certifications does this product have?

A: This product is certified with ISO9001, ISO14001, and CE.

Q: What is the minimum order quantity for this product?

A: The minimum order quantity for this product is 1 set.

Q: How is this product packaged?

A: Please consult customer service for packaging details.

Q: What is the estimated delivery time for this product?

A: The estimated delivery time for this product is about 30-50 days.

Q: What are the payment terms for this product?

A: The payment terms for this product are L/C, T/T, Western Union, and MoneyGram.

Q: What is the supply ability for this product?

A: The supply ability for this product is 100 sets per month.
